

Registration Information for Students Currently Enrolled in District 213

As the 2009-2010 school year approaches, we want to thank you for trying our newly created downloadable registration forms. It is our hope that this option will make your wait time at registration much lower. You can now download our forms at any time, fill them out on your schedule and stop by registration with a portion of the process already completed. You will still need to come to one of our scheduled registration times in order to obtain schedules and handbooks, update contact information as needed, and pay any required fees. Below you will find information concerning each form:

Form 1: Form 1 was created to combine several past forms into one document. Please fill-out the informational items at the top, read each section, mark the appropriate agreement/disagreement areas, and sign in any required areas.

Form 2: Form 2 is the SchoolReach Information Request form. This form is used to gather SchoolReach-specific contact information.

Form 3: Form 3 is a pesticide application notification registry. The school from time-to-time will need to apply pesticides. This form is for those who want to be notified of any applications of the pesticides in their child's school.

Form 4: Form 4 contains specific language regarding the use of Asthma inhalers while at school. You must only complete if your child(ren) use/carry an asthma inhaler during the school day.

Form 5: Form 5 is specific to juniors and seniors who attend the Capital Area Career Center (CACC).

Thank you again for trying our new online option. Please remember that you still must come to one of our scheduled registration dates.

Registration Dates and Times:

*August 4th from 12:00p.m.-7:00p.m. & August 5th from 12:00p.m. -5:00p.m.
